

## 15 PhD Opportunities Available

within the Marie Skłodowska-Curie actions - Innovative Training Network (ITN-ETN)

*"BASE-LiNE Earth"*

### △ about

BASE-LiNE Earth is an international training, research and career development network for highly motivated young scientists, who are exposed to state-of-the-art research on one hand and to a comprehensive training programme on the other. To learn more about the *BASE-LiNE Earth* Project visit <https://www.baseline-earth.eu>

### △ jobs available

We invite applications to undertake competitive high-level research on the complex Phanerozoic seawater history through the determination of original proxy information preserved in reliable geological archives such as fossil brachiopods using cutting edge technology and experimental approaches. For detailed description of jobs offered, information on salary, and relevant contact details for submitting your application see <https://www.baseline-earth.eu/vacancies>

### △ interested?

You would like to get more details or you do have questions concerning eligibility, application procedure etc.? Then contact
